

Strategy

Environmental Policy

03.01.2018

As Arpek, our basic principles are to be an innovative and respectful enterprise operating in the aluminum high pressure die casting sector,

- To be an organization in harmony with the environmental legislation and administrative regulations in force in our country and to ensure that an Environmental Management System that takes into account Arpek related parties & contexts, international standards, legal requirements and customer special requests is used effectively in line with Arpek's strategies and targets,
- To evaluate our environmental wastes by using appropriate disposal and recovery methods,
- During product development, production and field usage; to minimize resource consumption through the philosophy of continuous improvement, to take measures to prevent wastes and pollution of the environment,
- Ensure that all our employees and subcontractors are responsive to the environment by contributing to the continuous improvement.

A handwritten signature in blue ink, appearing to be "Kerem Arpek", written in a cursive style.
