

Strategy

Vision

- To be preferred high pressure die casted, machined parts and components supplier ready for final assembly by OEM's and Tier1's.

Mission

- Sustainable and value-added services for customers.
- Zero defect mind on the quality.
- Integrated production supporting lean manufacturing principles.

Quality Policy

- Arpek effectively manages risks, opportunities and continuous improvements on its processes in order to provide reliable products and services by means of Quality Management System through Arpek Vision & Mission and defined quality objectives that respect Arpek's interested parties and its context, international statutory & regulatory requirements and customer specific requirements.
